

Dérive day

#deriveday

worldwide

9 September

What happens on Dérive Day 2017?

On September 9, Dérive Day 2017, join flaneurs across the world in a *hosted dérive*. Starting a number of times during the day, participants are presented the exact same task cards simultaneously wherever you are in the world. Share your experiences on social media as a testimony to your own unique *dérive*, photos, thoughts and locations around the world.

Taking the ideals of the Situationist and merging them with digital means, Dérive app is a simple but engaging platform that allows users to explore their urban spaces in a care-free and casual way, as a game.
